

SAFETY DATA SHEET

Insect Light Trap (ILT) Glueboards – UV Stable -With Pheromone

1. Identification

Manufacturer:

Web-Cote Industries
141 Wheatsworth Rd.
Hamburg, NJ 07419 USA
Phone: 973-827-2299

Emergency Phone (24-hour): CHEMTRAC 1-800-424-9300

Recommended Use: Glueboard inserts for insect light traps, with pheromone attractant (professional use).

2. Hazard(s) Identification

OSHA Classification: Skin Sensitization – Category 1B

Signal Word: Warning

Pictogram: Exclamation Mark

Hazard Statement: May cause an allergic skin reaction.

Precautionary Statements: Avoid skin contact. Wear protective gloves if prolonged or repeated contact is anticipated.

Supplemental Information: Hazards associated with molten adhesive during industrial processing are not expected during normal use of the finished product.

3. Composition / Information on Ingredients

Pressure-sensitive adhesive applied to a solid substrate with pheromone attractant.

Contains Z-9-Tricosene (CAS 27519-02-4) at low concentration. Exact composition and percentages are withheld as trade secrets in accordance with OSHA 29 CFR 1910.1200(i).

4. First-Aid Measures

Eyes: Flush with water 15 minutes. Seek medical attention if irritation persists.

Skin: Wash with soap and water. Remove contaminated clothing. Seek medical attention if rash or irritation develops.

Ingestion: Do not induce vomiting; seek medical attention if symptoms occur.

Inhalation: Not an expected route of exposure under normal use.

5. Fire-Fighting Measures

Extinguishing Media: Water spray, foam, CO₂, dry chemical.

Hazards: Combustion may produce carbon monoxide and carbon dioxide.

Protective Equipment: Self-contained breathing apparatus and protective clothing.

6. Accidental Release Measures

Allow molten material to cool and solidify. Collect mechanically and dispose of in accordance with Section 13.

7. Handling and Storage

Store in a cool, dry place. Avoid unnecessary skin contact during handling.

8. Exposure Controls / Personal Protection

Gloves recommended if prolonged or repeated skin contact is anticipated. No respiratory protection required under normal use.

9. Physical and Chemical Properties

Solid; clear; negligible to mild odor; Specific Gravity ~0.92; Flash Point >400°F (204°C); Insoluble in water.

10. Stability and Reactivity

Stable under normal conditions. No hazardous reactions expected.

11. Toxicological Information

Skin contact may cause allergic skin reaction in sensitized individuals.

No acute toxicity expected from finished product under normal conditions of use.

12. Ecological Information

No data available.

13. Disposal Considerations

Dispose of in accordance with federal, state, and local regulations. Product is not classified as hazardous waste under U.S. EPA regulations.

14. Transport Information

DOT / IATA / IMDG: Not regulated.

15. Regulatory Information

OSHA HazCom compliant. TSCA listed. Not subject to SARA 313.

This product does not contain chemicals known to the State of California to cause cancer or reproductive harm, or such chemicals are present at levels below applicable warning thresholds.

16. Other Information

Revision Date: January 2026

Supersedes: February 19, 2016
