

A NEW STANDARD FOR RESPONSIBLE GLUE TRAP USE

As legislation, public scrutiny, and industry expectations continue to evolve, professional standards matter more than ever.

The **Responsible Glue Trap User (RGTU) Certification** provides pest management professionals with practical training focused on responsible, defensible glue trap use within real-world service environments.

Built around IPM/APM principles, ethical decision-making, monitoring, documentation, and professional accountability.

WHAT YOU'LL LEARN

- Best Practices for Placement & Monitoring
- Ethical Decision-Making Frameworks
- IPM / APM Integration
- Documentation & Defensible Practices
- Humane & Responsible Use Standards
- Real-World Case Studies

EVERY TRAP SHOULD HAVE A REASON, A RECORD, AND A RESULT.

Reason

Intentional placement
based on conditions
and need

Record

Monitoring and
documentation that
inform decisions

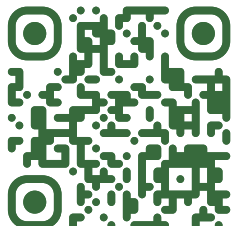

Result

Outcomes that support
effective, responsible
pest management
