

Women in Pest Control Branded Glue Boards

Every glue board can make a difference.

Support Women in Pest & Wildlife Control with every case you purchase.

The Women in Pest & Wildlife Control (WIP&WC) Glue Board Program was created to provide an ongoing source of funding for the organization through products pest management professionals already use every day.

Why it Matters

Every case purchased helps Women in Pest & Wildlife Control continue to invest in education, professional development, networking, and the next generation of women entering the pest management industry.

Because sometimes supporting your industry starts with something as simple as choosing a different glue board.

Better Board. Bigger Purpose.

- Available in two popular sizes: Standard Mouse Boards and Multi-Catch Boards
- Made with moisture-resistant milk carton paper, perfect for damp environments
- Manufactured by Web-Cote Industries
- Made in the USA
- \$1.00 - \$1.25 from *every case sold* goes directly to WIP&WC and supports education, grants, and conferences for women in pest control
